

## Combating Fraud and Protecting Everyone: Anti-Fraud Awareness Outreach for Inmates' Families

To implement the New Generation Anti-Fraud Action Plan, this institution promoted fraud prevention awareness among inmates' families through visitation events, educational consultations, and Family Day activities. Posters, staff explanations, and educational videos were utilized. In 2025, a total of 450 family members participated. In response to the Government's Universal Cash Distribution Policy, families were reminded to rely on official information to prevent fraud.
